

Oak Class Activities

Dear Parents/Carers

The following are more suggested activities to do if you have time. Please don't worry if you haven't completed all the activities that I have previously suggested. Feel free to carry on with those and try some of these if you can, when you have time. Remember to try and read every day and exercise when you can. Why not try the Joe Wicks PE lessons at 9:00 am every weekday!

Year 1 Maths

Year 1 & 2 English

Choose and watch a Julia Donaldson story by clicking on the link below. There are seven great stories to choose from. After watching can you retell the story to someone at home? How about making a story map to retell the story and then writing the story. Maybe you could make your own version of the story with perhaps some different characters or settings in it.

Other ideas:

- Practise telling the time.
- Count up your pocket money.
- Play any games you have at home (snakes and ladders, shopping games).
- Do some cooking and practise measuring out the ingredients.
- Go on a shape hunt around the house and garden.
- Have a go at measuring and comparing objects around the house.

Here are some more activities for you to try over the time at home:

- Grab an old cereal box and re-create a story inside.

- Make a picture using ripped pieces of a magazine.

- Try printing with Lego.

- Make some playdoh.

Here are the ingredients:

2 cups flour, 1 cup salt, 1 tablespoon oil, 1 cup cold water, Food colouring
Mix together and knead well.

Have fun and enjoy spending time with your family!

Mr Watson
