

Music: Learning songs to perform at the Easter Service and Music Assembly.

We will explore and comment on music from around the world that we listen to and will comment on the effectiveness of our own and others' work.

We will continue our understanding of music notation as well as working on improvisation skills.

Geography:

Locating countries and oceans of the world.

We will be exploring different countries, looking at both human and physical geography and think about how the climate changes around the world.

Using globes and atlases we will explore capital cities of countries and what the landscapes across different continents look like. From polar regions, to the different types of rainforests.

Science: A world of living things

Looking at what an ecosystem, community and habitat are and the differences between them.

Classifying animals and understanding what producers and consumers are, predators and prey.

We will learn how to use classification keys to help group, identify and name a variety of living things.

And will develop a greater understanding of what a food chain and food web are and how they are constructed.

Computing: e-Safety, Programming, Handling Data, Technology in our lives. We will be using the programme 'Scratch' to create jokes and a game - setting our games in different locations around the world.

RE: What does it mean to be Muslim? Why do Christians call the day Jesus died Good Friday?

French:

In French, we will be learning to talk about activities that we do and also what time we do them at. We will also be learning about festivals.

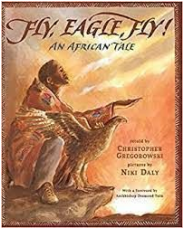

PE:

Dance
OAA
Korfball

History:

Through our exploration of different countries and cultures this term we will discover how history has helped shape the world around us.

PSHE: Personal safety, respect, Kidscape, Self-control, responsibility

English: Class Novel 'Fly Eagle Fly'

We will be basing much of our work this half-term on the book 'Fly Eagle Fly' - an African tale retold by Christopher Gregorowski. We will be focusing on our narrative writing, informal letter writing and writing poetry about nature. We will also be looking at poetry by Valerie Bloom and from the Hot Like Fire collection.

Maths: This term we are working on our written methods for multiplication and division, fractions, decimals (year 4), statistics (year 3). We will be applying our knowledge to explore and solve problem solving and reasoning questions and continuing to improve and knowledge and speed of recall of our times tables.

Art and Design: Traditional recipes from around the globe, looking at artists from around the world and how our surroundings can influence our art. African art. Children will be creating a range of African patterns using different medium and then producing a traditional african batik fabric design. We will also be creating our own pop up books.
